1 My Life, My Story

YOU'RE JUST A PART OF IT

They say that "Life's trials will test you, and shape you, but don't let them change who you are", this quote has been the story of my life so far being face with problems one after another without stop. But here I am, still standing ready to face anything that's in my way.

My name is Matthew Isaac L. Bides, I was born on the 3rd of October, in Doña Marte Maternity Hospital, Pasay City. I was the first born of Rodolfo F. Bides and Marivic L. Bides. I don't usually open my life for everyone because trust issues, not to other people, but on my self. That's why Every time someone asked me about life, I just simply say that there's nothing special with it because I am scared that something might change inside me when I say this information about me.

Growing up I had to face a major problem about me physically and mentally, it happens so repetitively that it feels like an annually event for me. It all start when I start going to school. I studied half of my elementary year in Pamplona I Elementary School. In my first grade our house in manuyo was demolished so we ended up staying at my grandparents' house. And then after that, no major problem comes to my life, but then I moved to 2nd Grade and things got messed up again, my grandparents died and my father and my siblings agreed to a deal to sell the house. So we have to move to another house again, but this time, we are just renting it. Luckily in my 3rd grade my father has switch job for a better salary but we needed to moved again, and then the problem strikes at me.

1 My Life, My Story

YOU'RE JUST A PART OF IT

One day when I was riding my bike, it was a peaceful day and yet a motorcycle rider just decided to hit me. Thankfully it was just my right leg and arm that got seriously injured, but I'm stuck in my house for a long period of time. Things like this happen every school year, I get used to it as the years passed by and I started calling it a annual thing.

Today, I am a graduating grade 12 student of Las Pinas National High School - Senior High School. I finished the half of my elementary year in Daniel Fajardo Elementary School where I met some good old friends that keeps up with my craziness sometimes. And in my high school years where I met my very best friends whom I would stick up until now. Due to this pandemic, my life gets out of balanced but because of my friends and families that is always their when I feeling down and the same I can say to them, that I got their backs no matter what happened. In the end I'm still waiting for this year's annual things though I'm pretty sure it was gonna be rough.

2 The New Normal

The COVID-19 pandemic really caught the whole world by storm, 67 countries have announced lockdowns to their whole country due to the wide and quick spread of the virus affecting 47% of the world's whole population. because of this Philippines stated a new educational system in which in avoid the spread of the virus why still studying like nothing has happened. We call it "The New Normal", but is it worth it?

This new educational system was mostly composed of two types, the online class and the modular class. The online class is a class in which you, your classmate and your teacher has a meeting scheduled in which an online conference where the teacher is teaching.

2 The New Normal

On the other hand, modular type of learning is purposely used for the students who doesn't or having difficulties with the internet, in modular you will be given a hardcopy of modules and worksheets in which you will answer it and return it every week or every month for the teachers to check your progress.

As of now there is no major conflicts regarding this new educational system and we hope that it stays like that until this pandemic is over.

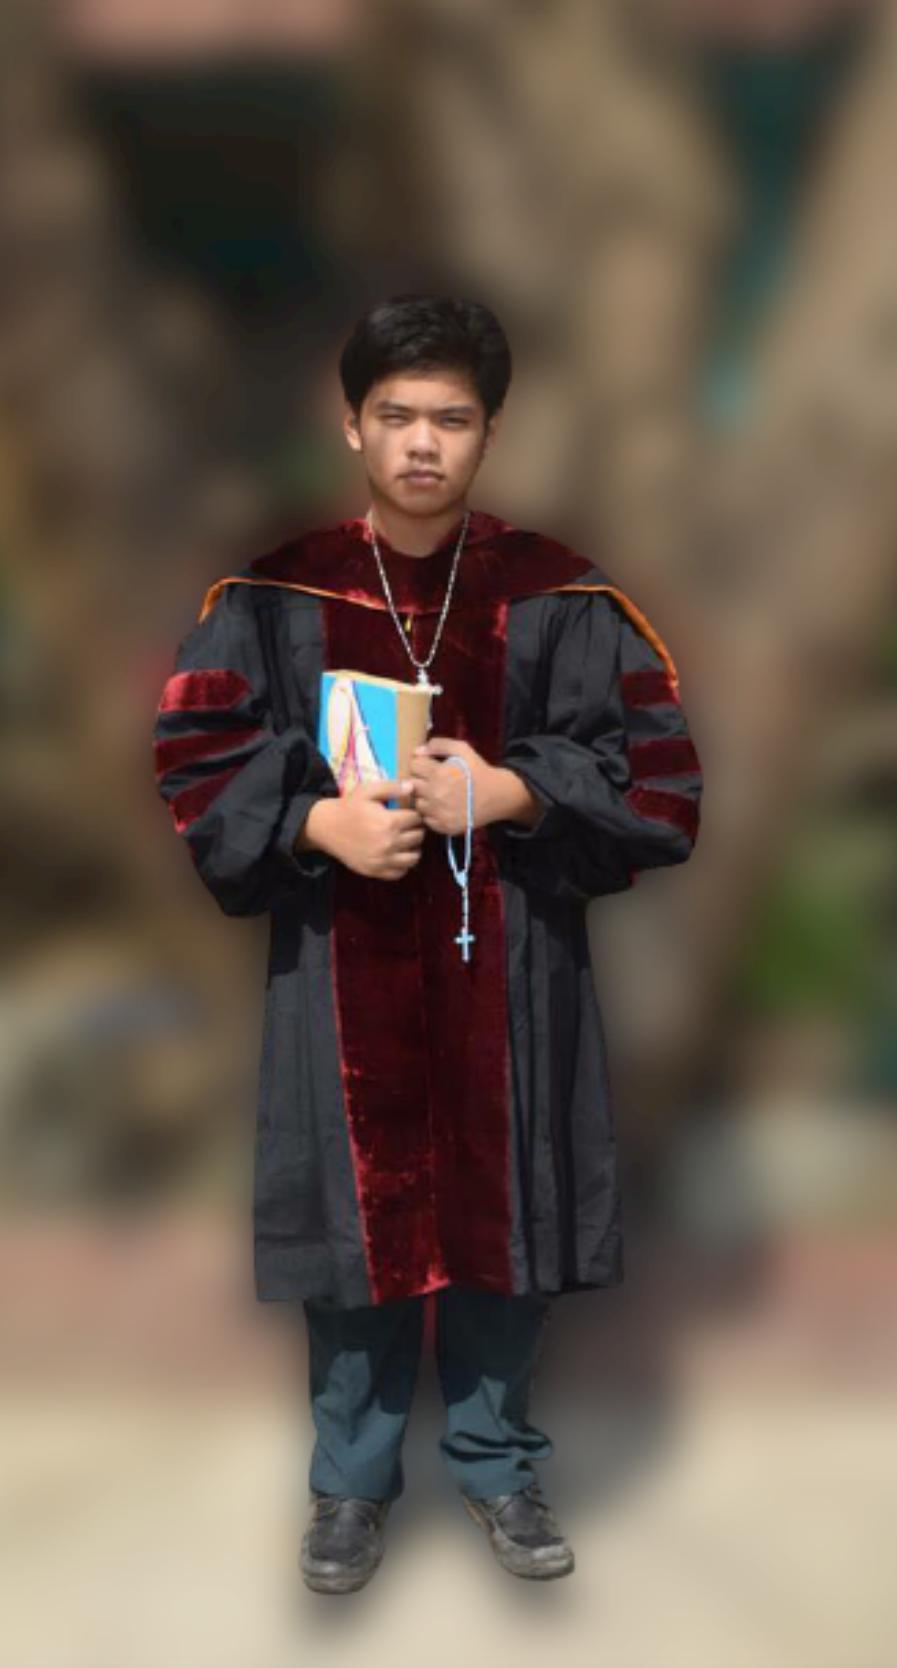

3 Retribution from the Past

"Every beginning has its ending", we all too familiar with that. And this Coming End of School Year will the end of a chapter for me. Taking a break at everything Reflecting on what went wrong. After that, a new beginning will start, A more responsible, discipline and mature me will come out from its hiding.

For me, seeing myself in the future means that I still have a goal in life that still didn't overcome. I see myself 20 years from now as a , of course, really mature man, living the best out of his life, working for the job he wants, a house that you yourself have created starting from the blueprint until its finished.

A man that is still hungry for adventure but never ever forgets to look back to the root where he comes from. 20 years from now, I will be an Architect, not just an Architect, but one of the best to take these profession. But the inside of this man will be his young, teenage self who still need some advice from time to time and never forgets the mistakes he did when he was young.

20 years from now, I
see a man looking back
at me saying that
whatever mistake that i
have done today, this
mistakes will be the
foundation of who I will
be in the future.

Aries

This year is looking great for the passionate sign of Aries! It's imperative that you take extremely good care of yourself, as the major aspect of Saturn in Aquarius in square to Uranus in Taurus will ignite rebellion in your zones of material wealth and friendships.

Taurus

You'll feel more spiritually connected to your community and recognized for your innate talents. Saturn's role in your life right now is taking you to a more public level which may bring sudden fame in certain capacities.

Gemini

There will be plenty of sudden and fated events directly affecting you in a positive way. You'll feel more aligned and present than ever, especially as the nodes of fate cycle directly through your sign.

One thing you can say about 2021 is that it won't be a comfortable or relaxing year. Instead, it will feel like an obstacle course with a glorious, golden trophy at the end. You must work strategically to move forward, all the while surrounding yourself with soul mates and other perfect partners.

Despite the temptations of doing everything all the time, don't let yourself burn out by taking on more than you can handle. Prioritizing your personal health and making time for pleasure will be immensely important to prevent yourself from becoming consumed by the many responsibilities and tasks on the job.

Cancer

Leo

Virgo

Sagittarius

This energy hits you on a cerebral level, creating a thirst for information that will leave you wanting to carve out a new path toward knowledge. This would be the perfect time to begin college courses or pursue some form of higher learning (even through a solitary hobby).

This will be the perfect time to pick up a new hobby or area of study, so consider enrolling in an online class or beginning a new project. The energy here can also help you set new boundaries where you need to create space with certain people, so take a step back from toxic or overbearing relationships.

Scorpio

Oct 23 - Nov 21

Capricorn

Dec 22 - Jan 19

Work will begin to pick up right before summer starts, and though professional ambitions are pretty much second nature to you, remember to take at time out for love, fun, and self-care

Libra

Aquarius

Jan 20 - Feb 18

Your potential for growth is astronomical this year, so each time the universe throws you a lesson, take it in stride. Remember that every heartbreak comes with a story that shapes you, every mistake paves the road toward perseverance, and those lessons will never stop coming.

You're the dreamiest sign in the zodiac, lovely Pisces, with an abundance of compassion and kindness. Your ability to intuit other people's feelings is a gift, but remember that it can be a curse as well, especially when somebody takes advantage of your sweet nature.
